Mumbai, India

## TECHNICAL SKILLS

Java, Selenium WebDriver, TestNG, Cucumber, REST API, SQL, Jenkins, GitHub, JIRA, IntelliJ Idea, VS Code, Postman and Agile Scrum.

## EMPLOYMENT

### Senior QA Analyst

Jan 2023 to Present

Capgemini, Mumbai

- Successfully reduced the average release cycle time by 30% for a major client through the implementation of automated testing and continuous integration practices.
- Led the creation and execution of scalable test architectures for diverse clients, ensuring seamless integration with CI/CD pipelines and achieving a 25% increase in testing efficiency, driving faster time-to-market.
- Mentored and trained over 5 shadow resources in Automation Testing, enhancing their technical skills and preparing them for independent project contributions.

**Technologies used:** Java | Selenium | TestNg | Git | Maven | Jenkins | CI/CD | SQL | Agile Scrum | Jira | IntelliJ Idea.

### QA Analyst

Apr 2022 to Jan 2023

Capgemini, Mumbai

- Gained hands-on training in Selenium, Java, and TestNG, building a strong foundation in automation testing principles and frameworks.
- Collaborated as a manual shadow resource for 7 months, gaining practical exposure to testing processes and contributing to test execution and documentation.
- Automated key test cases to support the primary automation tester, demonstrating initiative and proficiency in transitioning to a fully automated testing role for a major US client project.

**Technologies used:** Digital.ai Agility | Excel | Java | Selenium | TestNg | Cucumber | Git | Maven | SQL | Agile Scrum | IntelliJ Idea

## EDUCATION

Computer Science  
Engineering

Pune University

Batch 2017-2021
